Replacement / Custom Automotive Air conditioning refrigerant lines are manufactured at Autofrost Pty Ltd. These can be made out of high grade Aluminium pipe on our mandrel bending equipment and then end formed with our hydraulic forming machines. Or out of Rubber refrigerant hose that is highly resistant to temperature and very flexible.

Automotive Air Conditioning Systems and Components

The lighting system of a motor vehicle consists of lighting and signalling devices mounted or integrated at the front, rear, sides, and in some cases the top of a motor vehicle.They illuminate the roadway ahead for the driver and increase the vehicle's visibility, allowing other drivers and pedestrians to see its presence, position, size, and direction of travel, and its driver's intentions.
